

Wapakoneta Water Reclamation Facility Groundbreaking Ceremony

Wapakoneta's OneWater Plan: Investing in our Future

The City will memorialize its commitment to implementing its vision of equitable access to City water resources through a Groundbreaking Ceremony for the Wapakoneta Water Reclamation Facility (WRF). Join the Mayor, City Council, and project team in marking this important project marks a few investment in the City's future!

WHAT: Official Groundbreaking Ceremony for Wapakoneta's new Water Reclamation Facility

Scheduled for completion in 2024, the new water reclamation facility will use state-of-the-art wastewater treatment technology that will produce the highest-quality effluent water and prevents odors; maintain water quality and quantity for the citizens of Wapakoneta by improving the performance and treatment capabilities of its existing wastewater treatment plant and preserve water supplies and the environment for generations to come.

WHEN: Tuesday, April 19 at 10 AM

Program starts at 10:00 AM with the Mayor addressing the audience
